Distribution Charge Discount

HHHVC 230CAP

In the year commencing 1 April 2021, Northpower Limited will provide a discount for the benefit of Northpower consumers totalling an estimated \$11.7m. This will be a discount on Northpower's distribution charges and the amount which each consumer receives for each eligible ICP will be determined by the consumption notified to Northpower by the electricity retailers for the 12-month period to 30 September 2021 in two bands as follows:

- $\,\cdot\,$ Eligible ICPs with consumption exceeding 2,000 kWh will receive a single discount of \$216.
- $\,\cdot\,$ Eligible ICPs with consumption between 1 kWh and 2,000 kWh will receive a single discount of \$55.

To qualify as an eligible ICP, an ICP must be supplied from the Northpower electricity network with a registry status of "Active" (Connected) on 1 November 2021, have a current customer of an electricity retailer on that date, and the net consumption advised by the electricity retailers to Northpower for the 12-month period to 30 September 2021 for the ICP must be 1 kWh or greater.
