

# Price Schedule for the Northpower Electricity Distribution Network

Effective 1 April 2018 (All prices exclude GST). ICP counts have been updated as at 1 April 2018.

Delivery prices for all price categories, except ND7 and IND, are the same from 1 April 2018 compared to 1 April 2017, but the distribution and the transmission portions have been rebalanced.

**This schedule is provided to meet the requirements of clauses 2.4.18 and 2.4.19 of the Electricity Distribution Information Disclosure Determination 2012**

Loss Factors are available in the disclosure section of the Northpower website at: <https://northpower.com/company/disclosures>

The **LED or INC** group covers LED fixtures and incandescent lamps. For LED fixtures, the wattage is for the fixture, not the individual LED's that comprise the fixture.

The **FL, MV or SV** group is for florescent lamps, mercury vapour lamps and sodium vapour lamps (high pressure or low pressure) and all other types, excluding LED and incandescent lamps. The wattage for the **FL, MV or SV** group is assessed on the lamp wattage, excluding the ballast. The lower wattages in the bands allow for the losses in the ballasts.

For the purpose of the Registry, the Register Content Code and Available Hours is CN12.
