Non Standard Contracts

We have 1 customer who contracts directly with Northpower for electricity distribution services. The key terms of the contracts relating to that customer are outlined below:

Contr act	Date of contract	Services provided	Quantity of services	Capacity	Voltage	Payment timing	Security for payment
#1	January 2004	Line Services	2 dedicated HV feeders and HV switchgear	50,000 kVA (N-1)	33 kV	20 th of month following end of each month	Disconnection
#2	January 2014	Additional Assets	2 dedicated HV feeders and HV switchgear	25,000 kVA (N-1)	33 kV	20 th of month following end of each month	Disconnection

In the event that supply is interrupted to this customer the Distributor is required to resume the conveyance of electricity as soon as reasonably practicable.
